

Alif Rafi Tulusena

UI/UX Designer and Frontend Developer

South Tangerang, Indonesia | +62 878 22 787889 | alifrafitulusena@gmail.com | www.linkedin.com/in/alifrafitulusena

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in UI/UX design and software development gained through three professional roles. Skilled in web development, UI/UX design, and creating user-centered interfaces that balance usability, functionality, and visual appeal. Currently handling a project remotely as a UI/UX Designer, with a strong understanding of both technical development and end-to-end design processes. Eager to build a long-term career in UI/UX Design by transforming user needs and business requirements into intuitive, engaging, and impactful digital experiences.

EDUCATION

Computer Science | University of Gadjah Mada, Yogyakarta, Indonesia.

2022-2026

Bachelor of Computer Science graduate with a GPA of 3.58 and a recipient of the Hana Bank Foundation Scholarship. Possesses a solid foundation in software development, web technologies, database management, and UI/UX design, developed through academic coursework, hands-on projects, and collaborative assignments.

PROFESSIONAL EXPERIENCE

Remote UI/UX Designer Intern at Datacakra | Jakarta, Indonesia.

January 2026 – February 2026

- Collaborated with the IT division to translate user needs into technical requirements and support the integration of the government's SATUSEHAT service into RekMed, the company's medical record dashboard application.
- Designed multiple high-fidelity dashboard application screen mockups using Figma for the company's pitch deck, transforming business requirements and product ideas into visually compelling interface concepts that effectively communicated the proposed solution to clients and stakeholders.

Full-stack Web Developer Intern at FMIPA UGM | Yogyakarta, Indonesia

August 2024 – January 2025

- Developed a role-based student performance monitoring feature for FMIPA UGM's existing academic dashboard, enabling academic advisors, department heads, and faculty leaders to identify students with low grades, missed academic milestones, and other academic concerns.
- Designed the interface in Figma, developed a built-in email notification system with reusable warning templates, performed functional testing, and presented weekly progress to faculty and IT supervisors before completing the project ahead of schedule.
- Built the feature using PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, and MVC architecture; cleaned and processed approximately 1,500 student records and wrote complex SQL queries joining data across multiple interconnected tables.

PROJECTS

Remote UI/UX Designer at FMIPA UGM | Yogyakarta, Indonesia

May 2026 – September 2026

- Currently contributing to the redesign of FMIPA UGM's main website and its departmental websites, transforming outdated interfaces into modern, responsive, and user-friendly digital experiences.
- Currently designed 10 high-fidelity page layouts already for the main FMIPA website in Figma, covering key content structures, navigation flows, and visual components.
- Translated approved designs into functional WordPress pages using Gutenberg and Elementor, gaining hands-on experience in front-end implementation alongside UI/UX design.

Beta Tester at Ministry of Energy and Mineral Resources | Yogyakarta, Indonesia

September 2024

- Participated as a beta tester and bug hunter for the Ministry of Energy and Mineral Resources' internal application, ensuring software functionality and stability, then identified and reported 24 bugs within a 6-hour testing session, contributing to improving the application's performance and user experience.

LSTM on Time Series Datasets Prediction Research

Jul. 2024 - Sep. 2024

- Conducting research as a research assistant under Faizal Makhrus, S.Kom., M.Sc., Ph.D. paper about LSTM
- In charge of making a deep learning method using LSTM in C++ language from scratch without using any library and baseline model of LSTM with completely dynamic variables with totals of 800+ lines of code for further development done in span of 3 months

ACHIEVEMENT

Hana Bank Scholarship Awardee

Nov. 2024 – Present
